06/2024 – 05/2025

Quality Analyst/Tester

Pangean Global services

T-Chits – Chit Fund Management System

Manual Tester

- Designed and executed test plans covering modules like Foreman Operations, Registration, Auctions, Payments, and Subscriber Portal.
- Performed end-to-end manual testing across frontend and backend, ensuring accurate integration and data flow.
- Led post-migration testing, validating system stability, UI consistency, and data integrity.
- Conducted functional, regression, and cross-browser testing throughout the SDLC.
- Maintained test cases in Excel and tracked defects using JIRA, ensuring effective issue resolution.
- Collaborated with developers and analysts to enhance usability and overall product quality.

TKZ – Blockchain-Based Real Estate Platform

Manual Tester

- Performed end-to-end testing of a decentralized platform for secure real estate transactions using blockchain and cryptography.
- Verified transaction integrity, smart contract logic, and user authentication for system reliability.
- Created and executed functional and regression test cases, identifying edge cases and system flaws.
- Participated in test planning and requirement analysis to ensure complete test coverage.
- Contributed to improving performance and usability by proactively identifying key issues early in the QA cycle.

11/2023 – 02/2024

Business Analyst

SNAD Developers

Rightly HR – Mobile HR Management App

Business Analyst

- Gathered and analyzed business requirements for the mobile HR platform covering recruitment, leave, and performance management.
- Created user stories, wireframes, and acceptance criteria to guide development and QA.
- Conducted scrum calls, managed the product backlog, and coordinated with cross-functional teams.
- Designed mobile-friendly workflows and collaborated closely with UI/UX teams to enhance user experience.
- Supported UAT and ensured timely delivery of features aligned with business goals.
